1 Summary of Performance

1.A Introduction

This Budget Performance Report for Bauchi State is prepared quarterly and issued within four weeks from the end of each quarter.

This report includes the originally approved budget appropriation for the year 2024 against each organizational unit for each of the core economic classifications of expenditures (Personnel, Overheads, Capital, and Others); the actual expenditures for the quarter Q3, attributed to each organizational unit; the cumulative expenditures for the year to date; and balances against each of the revenue and expenditure appropriations.

This Q3 report is assessed against the 2024 Revised budget.

The core economic classifications refer to:

- Personnel – Economic Sub-Account Type 21
- Overheads - Economic Account Class 2202
- Capital - Economic Sub-Account Type 23
- Others - Economic Account Classes 2203-2209 as applicable

This Budget Performance Report is produced by the Office of the Account General Ministry of Finance and Ministry of Budget, Economic Planning, and Multilateral Coordination, and published on the Bauchi State website.

1.B Revenue Performance

The 2023 Budget Revenue Components are made up of the following:

i. Government Share of FAAC (Statutory Revenue) - Out of the sum of N159,088,077,055.00 approved in the budget and revised to N219,305,885,872.34 in third quarter, has an actual performance of N133,178,701,697.60 representing 60.7% against the revised budget during the period under review. The removal of the Oil Subsidy by the Federal Government has seen an improvement in this revenue component accruing to the tiers of government for the period under consideration. Another key determinant of this revenue item is the country's oil production benchmark which had slightly increased from an average of 1.28 million barrels per day in the last quarter to an average of 1.35 million barrels per day in the period under review, an increase that could be attributable to the 1.72 million bpd quota allocated to the country by the Organization of Petroleum Countries (OPEC). This had increased projected streams of revenues from the Federation Account. Relatedly, the rising exchange rate and depreciation of the local currency meant a significant rise in the local value of the income derived from this component.

As a result of the policies and the aftermath effect; the standard of living of the citizens was negatively impacted by rising inflation and this necessitated the government to take steps to provide palliatives to address concerns surrounding the removal of the oil subsidy. This is one of the reasons that led to an increase in projected oil earnings and thus the performance of the state.

ii. Independent Revenue - The sum of N37,029,075,592.51 was approved, out of which N15,917,058,041.33 representing 43.0% was realized during the period under review. Revenue generation especially through the collection of assessed taxation had unusually been slow over the last three (3) quarters. Though the performance had moderately increased during the period of the review, this we believe will continue to improve in the remaining quarter of the year with increased recovery payments from the assessment. It is also important to note that most MDAs have not submitted their revenue budget performance for the period under review, and this has adversely affected the overall (IGR) revenue performance. With this development, the State Government through the Board of Internal Revenue Service (BIRS) had also put machinery in place to ensure the effective implementation of some key revenue reforms that will help to improve the revenue performance in the long run.

iii. Aids and Grants - The sum of N20,195,592,702.38 representing 53.2% was realized against the revised budget of N37,981,551,541.66 for the Q3 which has an approved budget of N27,590,981,084.05. The slightly improved performance is because some of the expected funds were accessed and reported accordingly, most especially related to the Primary Health Care Development Agency. There is also a strong indication that other components of this source of income will perform even better as the assessment and implementation of programmes will better perform within the last quarter.

iv. Capital Development Fund CDF (Receipts) - Capital Development Fund received a budgetary allocation of N62,038,583,996.75 and revised to N95,038,583,996.75 out of which the sum of N 99,110,499,119.33 or 104.3% was realized during the last three quarters. The improved performance of this component of receipt is largely due to the World Bank RAAMP and AGILE projects that have become disbursement effective with the earnest implementation of associated projects. There are revenue items that were received from the Federal Government which were classified under Unspecified Revenue during the period under review also contributing to good performance of this revenue for the period under review. Meanwhile, it is important to know that more projects like SABER and others are most likely to become disbursement effective in the remaining part of the year will surely lead to even improved performance in this component of receipt.

v. Total revenue (Including opening balance) projected for the year was N300,219,705,820.60 and revised to N394,896,305,820.60 in the third quarter

recording an actual performance of N273,943,060,377.98 representing 69.4% during the period under review. The good performance as compared to a scenario of the last three (3) quarters of the year is largely due to the realization of a substantial part of recurrent revenues and some capital receipts budget line items.

1.C Recurrent Expenditure Performance

The approved budgeted recurrent expenditure of N121,558,272,959.80 was revised to N179,803,352,959.80 in third quarter, out of which N48,489,668,311.94 revised to N49,531,385,311.94 was for personnel cost while other recurrent expenditure (overhead cost) accounted for N73,068,604,647.86 but revised to N 130,271,967,647.86.

Out of the personnel cost of N49,531,385,311.94, N29,246,368,881.47 representing 59.0% was expended in the last three (3) quarters, and this clearly shows the commitment of the Government to the payment of salaries and wages. It is also important to know that this budget component is most likely to change in the coming quarter with the introduction of the minimum wage. Other recurrent expenditures recorded performance in the sum of N99,308,507,252.67 in the last three (3) quarters from the revised budgeted amount of N130,271,967,647.86. representing 76.2%.

1.D Capital Expenditure Performance

Capital Expenditure was projected in the sum of N178,661,432,860.80 representing 55.67% of the entire Budget Size was revised to N215,092,952,860.80 in the third quarter. The sum of N74,351,352,708.09 or 34.6% was incurred as expenditure against the revised budget during the period under review. The reason for the relatively low performance to capital expenditure is a result of payment of between 30% - 50% of the projects' cost of all the capital projects that are currently being executed in the State. It is also important to know that the Supplementary Budget that was done during the period under review has also affected the percentage level of performance of this component of the budget. Meanwhile, funds for the payment of the massive infrastructural development projects currently going on across the State have been warehoused for the settlement of certificates on works completed as when due. This implies that there will great improvement in the capital expenditure performance in the last quarter of the year.

1.E Recommendations

Generally, the performance of the Budget in terms of both revenue and expenditure is commendable. However, there is room for improvement in some identified areas some of which are as follows:

a. Implementation of Treasury Single Account should be given priority to ensure that Revenue Generating MDAs are remitting all collections into the CRF.
b. Expansion of Tax Payer Base to capture more taxable individuals and organizations cannot be over-emphasized.
c. Collaborative efforts between the Government and donor partners should continue especially with improved confidence due to increased security.
d. The government should continue to fulfil its obligations in all agreements entered.
e. Monthly performance reports from MDAs should be strictly and continuously obtained to monitor the progress of projects and programs.
f. Sustained efforts to ensure revenue Generating MDAs report their revenue performances.
g. The government should continue to block leakages through improved procurement and clean payroll practices.
h. Continuous training for staff and relevant stakeholders on the Budget Performance Application Templates with specific reference to the issue of Virement or Budget Re-allocation.
i. Development of MDA Performance Template that will be deployed to MDAs for monthly and quarterly reporting of budget performance before consolidation in the main template.
j. Consideration should be given to the introduction of the IFMIS project.

Continuous training for staff and relevant stakeholders on the Budget Performance Application Templates with specific reference to the issue of Virement or Budget Re-allocation and Supplementary Budget.

1.F Conclusions

The Performance in terms of Budget Implementation is encouraging given the current economic realities with an average performance of 51.0% in the last three (3) quarters of the year which is normally low in terms of economic activities. However, the inclusion of the Supplementary Budget during the reporting period and reporting against the Revised Budget have also affected the percentage performance level. Meanwhile, we are optimistic that the targeted Budget Implementation will exceed the 85% annual target with everything being equal at the end of the 2024 financial year.

Meanwhile, it could also be observed that virtually zero drawn down against Grants and zero against loans this is because the State has not assessed most of these budget components during the period under review.

It is also important to note that the very few line Items that experienced excess expenditure like 22060101 (Foreign Interest /Discount - Long Term Borrowings) under the Ministry of Finance and Economic Development as well as others in some MDAs during the period under review have already been taken care of through Virement which,

is still receiving attention in the State House of Assembly. This was because the House of Assembly went on recess. The approved budget reallocation will be reflected in the last (fourth) quarter Budget Performance Report.

Below is the Summary of Revenue and Expenditure of the Supplementary Budget:
